

FOR IMMEDIATE RELEASE

KENNETH HITE'S TOUR DE LOVECRAFT: THE TALES TO DEBUT AT GEN CON INDY

August 11, 2008 - ALEXANDRIA, VA: Atomic Overmind Press proudly announces the publication of Kenneth Hite's *Tour de Lovecraft: the Tales*. A wide-ranging and friendly journey through H.P. Lovecraft's tales of cosmic terror and wonder, the *Tour de Lovecraft* is the ideal companion to the work of the twentieth century's greatest American horrorist. The book alternately ambles and careens through all fifty-one of the Master's horror tales in chronological order from "The Tomb" to "The Haunter of the Dark," offering cheerful opinion, incisive literary criticism, playful speculation, and the occasional unhinged rant.

"Getting to publish Kenneth Hite's unique take on the works of a horror-literature icon like H.P. Lovecraft is a real treat," said Atomic Overmind Press' El Jefe Hal Mangold. "His knowledge of the world of H.P. Lovecraft is deep, and his wit is razor sharp. It's a thoroughly entertaining and informative read."

"I'm thrilled that Atomic Overmind chose my first foray into literary criticism to be their first print release," said author Kenneth Hite. "I'm even more thrilled at how good they made it look, and I hope it's the first of many from both of us."

For the company's first foray into print publishing, Atomic Overmind Press has teamed with noted electronic publisher Ronin Arts. "Kenneth and I have a history of that dates back to the first *Suppressed Transmission* collection," said Ronin Arts president Phil Reed. "When he and Atomic Overmind Press approached me about working on the new book I didn't even give them a chance to finish talking before I said yes."

Tour de Lovecraft: The Tales will be available at two locations in the Gen Con Exhibitor's Hall: at the Cthuliana Corner (Booth #1621), and at Green Ronin Publishing (Booth #1921), who are graciously granting Atomic Overmind Press booth space.

After GenCon, the book will be available by mail order through Atomic Overmind Press and Warehouse 23, <www.warehouse23.com>, and in PDF form through both Atomic Overmind Press and Ronin Arts. The book will be available in the hobby and comic trade this Autumn, and in bookstores nationwide this Winter. Plans for e-book and audio versions are also in the works.
